

Dylan Tux Simpson

Curriculum vitae

Education

- (in progress) **Doctor of Philosophy**, *Rutgers University*, New Brunswick, NJ.
Ecology & Evolution
- 2018 **Master of Science**, *College of William & Mary*, Williamsburg, VA.
Biology
- 2016 **Bachelor of Science**, *Western Washington University*, Bellingham, WA.
Environmental Science; *Magna cum laude*

Publications

- 2019 **Simpson, D.T.**, M.S. Teague, J.K. Weeks, B.Z. Kaup, O. Kerscher, and M. Leu. Habitat amount, quality, and fragmentation associated with prevalence of the tick-borne pathogen *Ehrlichia chaffeensis* and occupancy dynamics of its vector, *Amblyomma americanum*. *Landscape Ecology* 34: 2435-2449. doi: 10.1007/s10980-019-00898-5
- 2019 Bunn, R.A., **D.T. Simpson**, L.S. Bullington, Y. Lekberg, and D.P. Janos. 2019. Revisiting the 'direct mineral cycling' hypothesis: Arbuscular mycorrhizal fungi colonize leaf litter, but why? *The ISME Journal* 13: 1891-1898. doi: 10.1038/s41396-019-0403-2
- 2019 **Simpson, D.T.**, M.S. Teague, J.K. Weeks, A.D. Lewis, P.M. D'Addio, J.D. Moore, J.A. Thompson, R.T. Canella, A.C. Harris, B.Z. Kaup, O. Kerscher, and M. Leu. 2019. Broad, multi-year sampling effort highlights complex dynamics of the tick-borne pathogen *Ehrlichia chaffeensis*. *Journal of Medical Entomology* 56(1): 162-168. doi: 10.1093/jme/tjy171

Presentations

- 2019 **Simpson, D.T.**, L.R. Weinman, M.A. Genung, M. MacLeod, R. Winfree. *More pollinators are important to function in communities, relative to monocultures.*
- o Oral presentation – Ecological Society of America
- 2018 **Simpson, D.T.** and M. Leu. *Investigating the spatiotemporal distribution of a tick-borne pathogen, Ehrlichia chaffeensis.*
- o Invited oral presentation – Virginia Master Naturalists
- 2018 **Simpson, D.T.** *Investigating temporal heterogeneity of Ehrlichia chaffeensis prevalence.*
- o Oral presentation – William & Mary Graduate Research Symposium
- 2017 **Simpson, D.T.**, M. Leu, O. Kerscher, B. Kaup, M. Teague, J. Weeks, A. Lewis, P. D'Addio, A. Harris, R. Canella, J. Thompson, and J. Moore. *Investigating heterogeneity of Ehrlichia chaffeensis prevalence: multi-year dataset reveals influence of seasonal weather patterns.*
- o Oral presentation – Ecological Society of America
 - o Oral presentation – Virginia Academy of Sciences

Graduate Program in Ecology & Evolution – Rutgers University
New Brunswick, NJ

✉ dylan.tux.simpson@gmail.com • 🌐 www.winfreelab.com

🌐 [dylantuxsimpson](https://dylantuxsimpson.com)

- 2017 **Simpson, D.T.** *Global change and the exacerbation of zoonotic disease. Or: why is a conservation ecologist studying ticks?*
 ○ Oral presentation – William & Mary Journal Club
- 2016 **Simpson, D.T.**, *Quantifying colonization of leaf litter by arbuscular mycorrhizal fungi in a temperate lowland forest.*
 ○ Poster – WWU Scholar's Week
- 2016 Anderson, R., B. McCadum, and **D.T. Simpson**. *Patterns of home range and habitat use by an ectothermic desert myrmecophile.*
 ○ Poster – Society for Integrative and Comparative Biology

Honors and Awards

- 2019 ○ Distinguished Thesis; William & Mary
- 2017 ○ Outstanding Teaching Assistant; William & Mary
 ○ Best Student Presentation; Entomology Section, Virginia Academy of Sciences
- 2016 ○ Presidential Scholar; Western Washington University
 ○ Outstanding Poster award; Undergraduate Research Symposium, Western Washington University

Grants and scholarships

- 2019 ○ \$29,600 – Graduate Fellowship, Rutgers University Institute of Earth, Ocean and Atmospheric Sciences
- 2018 ○ \$26,500 – Excellence Fellowship, Rutgers University School of Biological and Environmental Sciences
- 2017 ○ \$342 – Arts & Sciences Graduate Research Grant, College of William & Mary
 ○ \$200 – Ecological Society of America Disease Ecology Section student travel grant
 ○ \$500 – Arts & Sciences OGSR/Graduate Student Association Conference Funds, College of William & Mary
 ○ \$350 – Arts & Sciences Graduate Research Grant, College of William & Mary
- 2016 ○ \$4000 – Recruitment Fellowship, College of William & Mary Dept. of Biology
- 2015 ○ \$500 – Research grant, Western Washington University Office of Research and Sponsored Programs
 ○ \$2000 – Thomas Graham Memorial Scholarship, Huxley College of the Environment

Experience and service

Peer review.

Acted as a referee for the following journals:

- Ecology

Graduate Program in Ecology & Evolution – Rutgers University
 New Brunswick, NJ

Teaching and outreach.

- Guest instructor on maximum likelihood and Bayesian methods for Advanced Ecological Data Analysis, a graduate-level course at Rutgers University
- Guest lesson on pollination for 3rd graders at Princeton Academy of the Sacred Heart
- Guest lecture on ecology and pollination for Rutgers' Environmental Stewards program
- Guest instructor for Conservation Ecology, an upper-level undergraduate course at Rutgers University
- Teaching assistant at William & Mary; led laboratory exercises in topics ranging from field ecology to zebra fish ontology
- Prepared and taught statistics lessons for lab meetings and extracurricular student groups:
 - Introduction to frequentist stats (for undergraduates)
 - Introduction to Bayesian modeling (for graduate students)
 - Introduction to R (for undergraduates)
 - Occupancy modeling (for mixed undergrad/grad)
 - Spatial autocorrelation and spatially explicit linear models (for mixed undergrad/grad)
- Supervised three undergraduate research technicians, two of whom I assisted with successful research-grant applications
- Led workshop on tick ecology and safety with York County Park Service, in York County, Virginia

Service.

- Treasurer for Rutgers' Ecology & Evolution Graduate Student Association
- Student representative to Rutgers AAUP-AFT

Analytical experience.

- Statistical analysis and modeling using R and JAGS
- Processing and analysis of remotely sensed data using ENVI and ArcGIS
- Spatial analysis using ArcGIS, FRAGSTATS, and Geospatial Modeling Environment

Field experience.

I have worked on a variety of field projects, including studies of:

- Intertidal species of the Salish Sea
- Lizards of the Great Basin desert
- Mycorrhizal fungus of the Pacific Northwest
- Ticks of southeastern US
- Bees of the Great Lakes and mid-Atlantic

Some relevant skills and techniques:

- Insect netting
- Pitfall trapping
- Invertebrate ID
- Radio telemetry
- Fluorescent powder tracking

Lab experience.

- DNA extraction and PCR
- Microscopy
- Nutrient analysis
